

SPRINT - 3

Date	8 November 2022
Team ID	PNT2022TMID42565
Project Name	Smart waste management system for metropolitan cities
Points	20

Created a IOT device to sense the level of bins and do code for device and send to Node Red using the API keys from Watson platform CODE:

The screenshot displays the IBM Watson IoT Platform interface. The top navigation bar includes the IBM logo and a user profile for 'esakkiammalagu@gmail.com' with ID '70icwf'. The main content area is titled 'Browse IBM Cloud Apps' and features a '+ Generate API Key' button. Below this, a table lists API keys. One key is visible with the ID 'a-70icwf-1t1a83fhbn', description 'iot', and role 'Standard Application'. A detailed view of this key is shown below the table, including its creation date (Nov 22, 2022 5:19 PM) and last update (Nov 22, 2022 5:19 PM). The bottom status bar indicates '1 Simulation running'.

Key	Description	Role	Expires
a-70icwf-1t1a83fhbn	iot	Standard Application	-

API Key Information		Access Control/Permissions	
Key	a-70icwf-1t1a83fhbn	Last Edited By	esakkiammalagu@gmail.com
